

INCUBATOR

Biochemical Incubator

- ◆Microprocessor control temperature and timer
- ◆LED display temperature and running timer
- ◆Stainless steel inner, with door lock.
- ◆The glass door is convenient for observation.
- ◆Over temperature alarm,
- ◆Automatic alarm after operation.
- ◆BOD culture (optional interior with socket)

• SPX-150B

Illumination Incubator

- ◆Thermostatic equipment with lighting.
- ◆Microprocessor control temperature and timer
- ◆LED display temperature ,speed and timer
- ◆Stainless steel inner, with door lock.
- ◆The glass door is convenient for observation.
- ◆Over temperature alarm
- ◆Automatic alarm after operation
- ◆Used in animalcule histolytic cultivation

Blood Bank Refrigerator

- ◆Microprocessor control temperature and deepfreeze timer , PID self-tuning
- ◆Independent high-low temperature alarm with adjustable alarm range, safe and reliable
- ◆Stainless steel inner, with door lock.
- ◆The glass window is convenient for observation.
- ◆High and low temperature alarm
- ◆Suit for the medical and health institutions, blood centers departments to store blood
- ◆Suit for cold preservation of medicine

• BLX-150/250

• BLX-50/80

• YLX-150B

Pharmaceutical Refrigerator

- ◆Microprocessor control temperature and deepfreeze timer
- ◆Independent high-low temperature alarm with adjustable alarm range, safe and reliable
- ◆Stainless steel inner, with door lock.
- ◆The glass window is convenient for observation.
- ◆High and low temperature alarm
- ◆Suit for cold preservation of medicine
