

WS 70-1 Infrared Fast Dryer

The product is applicable to all kinds of laboratories in industrial and mining enterprises, scientific research and hospitals. The rapid drying of ws70-1 infrared ray is used for drying and evaporation by using infrared heat source.

Main technical parameters:

Electrical source	220V 50HZ
Power consumption	550W (250W2 infrared bulb)
Shape size	500*410*270mm (height * width * depth)
