# Product Name: Automatic Seed Counter

Model: SLY -E Plus

Characteristics

•Super-large touch screen design: 7-inch color touch screen, enhance the user's human-computer interaction experience

•Adjustable speed of counting disc: with stepless speed regulation function, the speed of counting grains can be adjusted

•Accurate counting: the discharge channel can be adjusted, only counting the particles of the selected magnitude, avoiding interference such as impurities

•High-precision weighing: built-in high-precision gravity sensor, can automatically weigh, automatically count grains, and automatically calculate thousand-grain weight

•Automatic deceleration, more accurate counting: decelerate and count after approaching the set number of seeds to improve the counting accuracy

•Automatic data recording: the measured data can be automatically recorded and saved, and the historical data can be viewed at any time

•Data export: support USB data export

Technical specification

Seed length	0.7~23mm
Counting error	±2‰
Weighing error	±0.2g
Vibration noise	≤70dB
Counting speed	≥1000 grains/3 minutes (Speed can be adjustable)
Weighing range	1~1000.0g
